What is your favorite part of your job?

Working alongside an incredible team and building relationships with founders. I enjoy collaborating across the business to solve problems and help our clients succeed.

What trait do you have that makes you great at your job?

I combine technical accounting expertise with the ability to simplify complex topics for founders. I enjoy collaborating with cross-functional teams to solve problems, deliver a great client experience, and help startups scale with confidence.

What is your favorite feature Fondo has and why?

My favorite feature is our streamlined on-boarding process. It makes getting started as simple and frictionless as possible for our clients, while ensuring our team receives everything needed to begin work efficiently. It creates a better experience from day one and helps us deliver high-quality service faster.

What advice would you give to new founders just starting out and joining the community?

Focus on building your product and serving your customers, but don't neglect your financial foundation. Setting up your accounting and compliance correctly from the beginning will save you time, money, and stress as you grow.

What is the biggest/most unique thing you've learned about the industry?

The pace at which startups evolve. Every company is different, and being able to adapt their accounting and finance function as they scale is just as important as keeping them compliant.
